

SI TECH®

QUICK DRY GLOVE SYSTEM

- * QUICK AND VERSATILE SYSTEM FOR DRY GLOVES.
- * SIMPLE TO DON AND DOFF WITHOUT ASSISTANCE.
- * BY MINIMIZING THE CONDUCTIVITY AND RESTRICTION OF THE BLOOD FLOW YOUR HANDS STAY WARMER WHICH MAKES DIVING MORE ENJOYABLE.

60230 set: QUICK GLOVE RINGS

Versatile connecting rings keeps your preferred glove fastened without o-rings or cement. **Combine with any of three docking systems: #60930, #60910 or #60215.**

This set of dryglove adapters work by friction and are squeezed onto any of the three docking systems.

Parts list: Doffing is made by turning the release ring.

60231 CONNECTION RING "COMFORT"

60232 RELEASE RING "COMFORT"

+ Spanner rings #60211 and #60212 and **o-ring** #80185, see below
2 spare o-rings (Jan. 2005) and Pressure Equalization Tubes

60945 10-pack: QUICK COMBO SETS

Combination of Quick Glove Rings and Quick Clamp. Only sold by SI TECH AB in boxes of 10 combo sets. Contains all of 60230 and all of 60930.

60930 QUICK CLAMP, SET

Simply clamp onto fixed latex cuffs.

Parts list: Combine with Quick Glove Rings.

60931 DOCKING RING (FOR QUICK CLAMP)

+ Spanner rings #60212, #60214 and #60219, see below

60910 QUICK CUFF, SET

Enables latex seal exchange without cementing when permanently installed.

Can be combined with Quick Glove Rings.

Parts list:

60200 STIFF RING

60420 WRIST RING, PU

61100 BOTTLE NECK SEAL SIZE MEDIUM
HEAT ACTIVATED MELCO TAPE

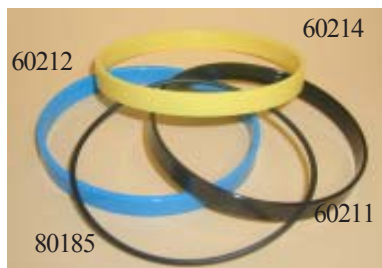

60215 set: QUICK GLOVE DOCKING RINGS FOR RUBBER CUFF RING

Enables docking of Quick Glove Rings to rubber cuff ring #60400 and similar rings.

Parts list:

60216 CUFF FIX RING FOR 60400

60217 CUFF ATTACHMENT RING

SPARE PARTS FOR QUICK DRY GLOVE SYSTEM

60211	SPANNER RING SMALL	93.8 mm	BLACK
60212	SPANNER RING LARGE	94.8 mm	BLUE
60214	SPANNER RING MEDIUM	94.3 mm	YELLOW
60219	SPANNER RING EXTRALARGE	95.6 mm	GREEN
80185	O-RING 90x2,5		

WRIST RINGS AS SEPARATE PARTS

60400 RUBBER CUFF RING

Combine with stiff ring #60200 to keep cuffs in place.
Gloves can be secured with rubber band #61117.

60402 Manufacturers set: 2x60400 + 2x60200 (one set/suit)

60400 can also be attached to Quick Glove Rings, set #60230, if combined with Q.G. Docking rings #60215 (set), replacing #60200.

60200 STIFF RING

Combine with cuff ring #60400 or wrist ring #60420.

60420 WRIST RING, polyurethane

Combine with stiff ring #60200 to keep cuffs in place.
See Quick Cuff #60910 for more applications.

60422 Manufacturers set: 2x60420 + 2x60200 (one set/suit)

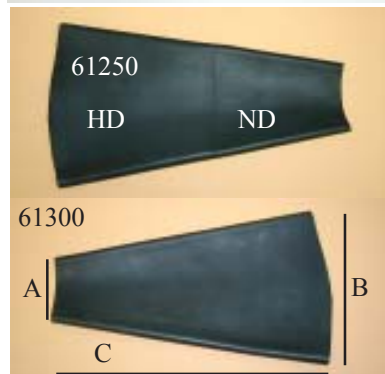

(Please note! Quick Cuff (60420+60200) is designed to be used with SI TECH bottle neck seals (below) If using thinner seals (at rear end) they may not provide adequate sealing. Thicker seals may cause the PU material in ring #60420 to expand permanently.)

Latex wrist seal BOTTLE NECK

The most comfortable wrist seal available. The sealing part is extremely long, thin (0,6-0,9 mm), very supple and slightly tapered for optimum comfort and sealing. Guide ribs for trimming. The exposed part is short to avoid damage and dipped to obtain a heavier attachment part.

61090	Large	for wrist cm: 18-21	inch: 7,2-8,4
61100	Medium	for wrist cm: 15,5-18,5	inch: 6,2-7,4
61130	Small	for wrist cm: 13,5-16	inch: 5,4-6,4
61150	X Small	for wrist cm: 12,5-14	inch: 5,0-5,5

SI TECH special manufacturing technique supports the unique latex formula that provides exceptionally supple seals and provides extra strength to exposed areas and the attachment end.

Latex wrist seal PRO

New design to fit the widest sleeves and more trimming guide ribs.

ND min. 0,7 mm. A) Front: 620mm B) Rear: 144 mm C) Length: 228 mm

61250 Cuff PRO, dual thickness (rear end HD)

61200 Cuff PRO Heavy Duty

61300 Cuff PRO ND

Heavy Duty, HD: 1,3-1,9 mm
Normal Duty, ND: 0,6-0,9 mm

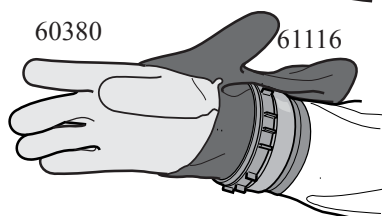

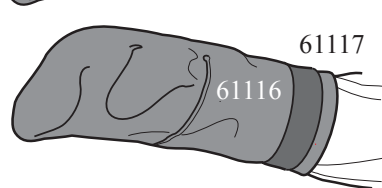

EXTENDED MODEL (only on special request, no stock item)

ND min. 0,7 mm. A) Front: 540 mm B) Rear: 174 mm C) Length: 280 mm

61250EX 61200EX 61300EX

DRY GLOVES FOR COMFORT AND DEXTERITY

PVC GLOVES, resistant to many contaminating agents

60360 **Froggy glove**, size 10 High dexterity, good cut resistance.
CE0120, CE1/EN420 CE3/EN374

60365 **Snorkel glove**, size 10 Good dexterity, high cut resistance.
CE 0493 (wash and tumble dry)

SHOWA GLOVES WITH SEPARATE LINER

For ultimate comfort and dexterity.

60370 Medium (ladies)

60380 Large

60390 X Large

SHOWA SEPARATE LINER (washable)

60395 Medium (ladies)

60396 Large

60397 X Large

LATEX 5-FINGER GLOVE

Durable and resistant to many contaminating agents.

61110 Size 10

61111 Size 11

LATEX MITTEN

Heavy Duty for tough working conditions.

61115 One-size mitten

RUBBER BAND

Secure latex gloves 61110, 61111 and 61115 to rubber cuff ring #60400.

61117 Rubber band order unit: piece

LATEX MITTEN, S&R

special cut, used to temporarily protect a more vulnerable interior glove

61116 Mitten, Search & Rescue cut

Combining of Froggy or Showa gloves (as above) and S&R mitten 61116, fitted simultaneously into the "Quick Glove rings" (#60220 or 60230) gives high dexterity and temporarily increased cut resistance as well as quick donning and doffing. Ideal for search and rescue use.

All gloves on this page can be fitted to Quick Glove Rings, set #60230.

Latex gloves 61110, 61120 and mitten 61115 can be used with Quick Cuff instead of the wrist seal.

(Please note! Using gloves or Heavy Duty seals in stead of normal thickness seals may cause the PU material in ring #60420 to expand permanently after which it may prove difficult to use normal seals.)

LATEX WRIST & NECK SEALS & HOODS

Latex wrist seal BOTTLE NECK

The most comfortable wrist seal available. The sealing part is extremely long, thin (0,6-0,9 mm), very supple and slightly tapered for optimum comfort and sealing. Guide ribs for trimming. The exposed part is short to avoid damage and dipped to obtain a heavier attachment part.

61250EX 61200EX 61300EX

Latex neck dam BELLOW

Slightly tapered, comfortable top with guide ribs for trimming.

Attachment part, diameter 26,5 cm.

61650	Small	for neck cm: 24-32	inch: 9,5-12,5
61651	Medium	for neck cm: 28-37	inch: 11-14,5
61652	Large	for neck cm: 35-43	inch: 13,5-17

Latex neck dam FLAT

The rear end, diameter 26 cm, is thicker than the top.

Normal duty:

61500	Medium	neck cm: 36-41	inch: 14-16,5
61700	Small	neck cm: 24-35	inch: 9,5-14

SI TECH special manufacturing technique supports the unique latex formula that provides exceptionally supple seals and provides extra strength to exposed areas and the attachment end.

FACE SEAL

Normal duty, for rubber and trilaminate suits or to mend neoprene hoods.

61900	Face seal	Un-cut	latex
61901	Face seal	Cut/pce	latex
61920	Face seal	Un-cut	chloroprene
61921	Face seal	Cut/pce	chloroprene

WARNING!

Latex may cause allergic reactions. SI TECH latex formula is TNTD-free and the leaching process reduces allergenic agents (latex proteins) to a non-detectable level. However, sensitive people may react to any latex.

SI TECH®

NECK RINGS

Suits with wide collars can be combined with a separate neck seal and a neck ring.

Attachment with a latex hood is optional.

Trim the neck seal #61515, put it on as shown in picture below (guide lines for trimming on the outside), close the neck ring #60100 and fold the edge of the seal over the ring. The bulges on the ring shall fit into the recesses in the neck seal. Put on the suit and slip the suit neck seal over the assembly. (If using a latex hood #61420, put it on top of everything). Secure with the locking ring #60000.

60100 **SPLIT NECK RING**

60000 **LOCKING RING, CPL.** for split neck ring

61515 **LATEX SEAL**, for split neck ring #60100

61420 **Latex hood**, regular, for split neck ring #60100

WARNING! Latex may cause allergic reactions.

QUICK DAM - Change latex neck seal in an instant

A trimmable PU collar is glued to the suit and a stiff ring is used to hold the removable neck seal in place. Secured with an external tension ring. Remove and replace the neck seal within seconds. Perfect for rental and school suits, as every user can buy and trim their own removable neck seal.

60920 **QUICK DAM CPL, SET**

Parts included in Quick Dam, set #90200:

60430 **Neck Stiff Ring, oval**

60435 **Tension ring**

60440 **Chimney, PU** (radio frequency weldable, gluable)

61520 **Latex neck seal, medium** (has a bulge that fits into a recess in the stiff ring)

Optional, ordered separately:

61680 **Latex hood for Quick Dam**
